To Whom It May Concern:

**RE: Bryna Monson - Languages of Life**

Languages of Life is a unique organization providing vital service in the city of Ottawa.

Its founder, Bryna Monson, saw a need for the service just as Ottawa's diversity was beginning; I recall doing television stories when there were a handful of interpreters available; now of course, there is 24 hour availability in nearly 200 languages!

Languages of Life have won high praise from police, emergency personnel, the courts, and hospitals. It has been studied enviously by other cities.

I'm one of many in the community who joins in those accolades - and feel blessed to have the agency making our community safer and better

Regards,
